

# Skills Bootcamp in IT Technician Programme overview

The demand for IT professionals is increasing on an annual basis, especially to unlock growth across various sectors in today's digital economy. Our IT Technician Skills Bootcamps programme focuses on teaching the technical skills required to start your career in IT and boost your employability skills.

Fully funded by the government and available to new and existing employees and created in part as a response to the pandemic, Skills Bootcamps are part of the Lifetime Skills Guarantee and Plan for Jobs. Previous experience isn't necessary, but you must have an active interest in working in IT.

## Your IT Career Starts Here!

## Skills Bootcamp Success Story

### Dharti Vyas - *Learner on programme & now an IT Apprentice*

“In the bootcamp, I have learnt how to troubleshoot IT problems that every business encounters frequently.

Just IT was fabulous about the entire process, from the very start all the way towards getting me to the workplace.

I recommend bootcamps since it's the best way to increase yourself whether you have experience or not.”

“  
**I am in my dream job right now**  
”
